SUMMARY

Aspiring Full Stack Web Developer with a strong foundation in modern web technologies including HTML, CSS, and JavaScript frameworks like React and Node.js. Proactively built and tested web applications using Django, Flask, and Express, ensuring robust performance and seamless user experience. Seeking opportunities to leverage skills in database management and comprehensive testing practices to contribute effectively to transformative web projects.

EXPERIENCE

Full Stack Web Developer

Self Employed   **April 2025 - June 2025, Pakistan**

· Gained Experience through various hands on project developed during different courses listed in courses section.

· Completed 4 advanced courses on modern web development.

· Built 4 personal projects to showcase my problem solving and designing skills.

· Implemented responsive web applications by integrating front-end frameworks with RESTful APIs, enhancing user engagement and streamlining data flow between client and server components.

PROJECT

Resume Builder

Full Stack AI Powered Application · resumebuilder-lake-beta.vercel.app · March 2025 - May 2025

· Enginered a full stack web based application using django at the backend and html,css, javascript and bootstrap at the frontend deployed on vercel.

· Full Responsive AI suggestion powerd application. Implemented AI suggestions functionality to help users fill in the form fields using AI suggestions.

Portfolio Site

Personal Project. · aneesali-beta.vercel.app · February 2025 - March 2025

· Engineered a dynamic portfolio website showcasing professional expertise and certifications, incorporating responsive design principles and interactive features to elevate user engagement.

· Integrated advanced analytics and Email.js to facilitate visitors send their message directly without visiting gmail.

Task Manager

Full Stack Application. · taskmanager-tau-eight.vercel.app · November 2024 - December 2024

· Built task manager web based application to help user become more productive and complete their tasks on time.

· Utilized flask at the backend and deployed on vercel.

· Added Calender integration functionality to view tasks on calender using javascript that improved User Experience and UI of the site.

Other Projects.

Full Stack Applications · January 2025 - May 2025

· Built several other projects such as network application(https://network1-swart.vercel.app).A threads like social networking application.

· Mail project A single page application using javascript to change the UI.Provides GMAIL like functionality(Visit Site).

EDUCATION

Bachelor of Science in Software Engineering

Virtual University of Pakistan · Punjab, Pakistan · 2025 · 3.9

· Currently pursuing BS Software Engineering degree from Virtual University of Pakistan with ongoing cgpa of 3.9.

· Mastering Algorithms ,Data Structures and Programming in depth.

Faculty of Computer Science

Kips College Wah. · G.T Road Opposite Kohistan Enclave. · 2024 · 8.8/10

· Gained foundational knowledge of programming which sparked my curiosity about programming and development that took me to exploring this
  field in details and gave me direction that I followed and worked hard to become web developer.

CERTIFICATIONS

Harvard CS50 Web Programming with Python and Javascript

Harvard University · 2025

· Earned Harvard CS50 Web certificate deepening expertise in web development using languages (html,css,javascript,bootstrap,react,django) and
  sharpened the ability to developed full stack applications using hands on projects approach.

Full Stack Open

University of Helsinki, Finland · 2025

· Completed full stack open course gaining expertise in modern web development in javascript ecosystem using react,node.js,express and other
  modern web technologies.

· Studied about different types of tests i.e., Integration testing,Unit testing and End to End testing using playwright.

Harvard's CS50 X

Harvard University · 2024

· Earned Harvard's famous CS50x certificate gained foundational knowledge in problem-solving, algorithms and data structures and programming
  languages such as C,Python,HTML,CSS and Flask.

· Developed curiosity to study web development in depth and master this field of interest.

SKILLS

Front End: HTML, CSS, Javascript, React, Bootstrap

Back End: Node.js, Express, Django, Flask, APIs

Testing: Playwright, Integration Tests, Unit Tests

Data Base: MySQl, NoSql(MongoDB)

Tools: Git and Github, Deployment
